# AMENDMENTS TO RAILROAD BILL

Interstate Commerce Commission Suggests That Certain Changes be Made.

BUT APPROVES IT AS A WHOLE

Does Not Want Commerce Court to Have Any Jurisdiction Over Its Orders.

Washington, Feb. 21.-In a formal statement submitted to President Taft

Washington, Feb. 21.—In a formal statement submitted to President Taft and to the house and senate committees, the interstate commerce commission has suggested certain changes in the interstate commerce mesaure pending in Congress.

The bill, as a whole, is approved by the commission, and in its statement the commission expresses its gratification "that this measure embodies most, if not all, of the principal recommendations heretofore made to Congress, except the valuation of railroad properties, and also contains provisions of great importance, which, in their general scope, are unanimously endorsed." However, the commission recommends that "the bill be so amended as to contain the explicit statement that the commerce court shall have no jurisdiction or power over the orders of the commission not now possessed by circuit courts of the United States.

"We are of the opinion that a single judge of the commerce court should not be empowered to stay an order of the commission," says the statement, and the suggestion is made "that such ray be granted only by the court or a majority of the judges thereof."

And Soon Cured Perfectly and Eco-nomically—Doctor Called It Ec-zema and Little Sufferer Rubbed and Twisted All the Time.

CUTICURA AGAIN PROVED "THE GREAT SKIN CURE"

"My baby boy was about nine months old when he had a breaking out on his neck which was very annoying. It used to make him very retful and cross because it seemed to worry him so much. In the meantime I was sick myself. I had my doctor look at the baby and he told me it was eczema and he wanted to treat it. But a friend of mine told me she knew it could be cured cheaper than any doctor could do it for and in much less time. So I started using the Cuticura Soap and Cuticura Ointment which I soon found out was what I ought to have had before, for the eczema seemed to itch so the baby could not keep his head still for he was rubbing and twisting all the time. I used the Cuticura Remedies about three times the first day and began to notice the good it was doing, for he began to get rest from rubbing his neck. "So I used three cakes of Cuticura Soap and two boxes of Cuticura Ointment and now no one could tell that he ever had any kind of breaking out, and since then I have never been without the ment. "We see no reason why the prohibition that one road shall not acquire any interest in a competing road should not be extended so as to prohibit the acquiring of any interest in a competing water line."

An amendment is suggested to include water lines.

A similar amendment is proposed to prevent the control of competing lines by a holding company.

Atty.-Gen. Wickersham appeared before the senate committee on interstate commerce late today and explained in detail the latest administration changes desired in the bill to create a court of commerce and amend the interstate commerce laws.

It had been expected that an effort would be made today to bring the subject to a vote, and that the bill might be ordered favorably reported, but Mr. Wickersham's statement and the ques-

Many of Them Happening Every Day
But Soon Forgotten.

Close shaves would be of more frequent occurrence but for the tender faces of many men, which will not permit of shaving often. Heretofore nothing has been said in these columns about poslam, a new skin discovery, in connection with its use after shaving. Its publicity and sales have been confined almost exclusively to its remarkable properties as an eczema cure; it stops the itching at once and cures the worst cases in a few days. While the application of poslam after shaving is one of its minor uses, such as for pimples, the complexion, etc., shavers will find it a revelation as it does for abrasions, roughness, and severe scrapings what it does for all manner of skin difficulties—heals and cures in a few hours. It is the only article possessing real antiseptic and curative value that has ever been exploited for this purpose, and will soothe and tone up the skin as no toilet preparation could possibly do.

Poslam can be had for fifty cents at any reliable druggist's particularly Schramm-Johnson Drug Co., who make a specialty of it. Or the Emergency Laboratories, No. 32 West 25th Street, New York City, will send a trial supply free by mail to any one who will write for it. This is sufficient to show results in 24 hours.

tions put to him consumed so much time that it was decided to hold another meeting tomorrow.

Senator Cummins, author of the rival rallroad bill, examined the attorney general with great care concerning many features of the administration bill that conflict with his own bill. At the same time he did not condemn the administration bill, and the indications are that no great difficulty will be encounetred in reaching an agreement for a report.

## SWIFT & CO. ABANDON EFFORT TO EVADE TAX

Kansas City, Feb. 22.—Swift & Co, one of the leaders in the light of the packing companies of Kansas City, Kan., to evade the tax placed upon their finished products, yesterday abandoned the effort to escape the tax, Attorneys for the other companies are said to have advised their clients to do likewise.

If the packers follow the lead of Swift & Co, one and one-half million dollars will be added to the property valuation of the packers on the Kansas tax rolls.

The supreme court of Kansas recently decided that the finished products of the packers were taxable.

It is expected the other companies will make known their future plans with regard to the tax next Thursday.

### SECY.NAGEL EXAMINING CHARGES AGAINST NEILL

Washington, Feb. 22.—Secy. Nagel of the department of commerce and labor expects soon to complete his examina-tion of the report made by the com-mittee which examined the charges preferred against Charles P. Neill, by Thomas R. Dawley, formerly a special agent, that much of the data gathered by the bureau touching women and child labor had been cast aside as usc-less.

Mr. Nagel said the matter had been disposed of by a former assistant secretary of his department, Mr. McHarg, but had been re-opened at the special request of Commissioner Neill because the integrity of the bureau of labor was involved in the charges made. The secretary intimated that his view of the allegations made might be gathered from the fact that he not alone had discontinued the publications of child labor compiled at the bureau of labor, but had expedited the conclusion of the work on that subject conducted by Mr. Neill. conducted by Mr. Neill.

a book justifying himself and proving by documents the evil designs of the United States.

"The real cause of the attitude of the United States toward Nicaragua," said the ex-president today, "is the question of the interoceanic canal which the United States wishes to digacross my country for its own use to the utter exclusion of other world powers. I always opposed the realization of this scheme, which would make Nicaragua forever a toy of the United States.

"There is no doubt that for this reason the government at Washington always opposed the conclusion of treaties between Nicaragua and the powers of Europe and Asia and it was to overcome their resistance that the hate of the United States was directed against me and the United States fomented a revolution against Nicaragua, Gautémala, in the person of Cabrere, serving as an instrument.

"Besides the United tSates wishes Nicaragua to be another Cuba. This would have been another way to ruin my country, which could never shake off such a yoke. This is the explanation of the actual situation in Nicaragua. More than 400 American soldiers, styling themselves deserters or volunteers, fought for the revolutionists. It is difficult for me to predict the future, but if the revolutionists win there is an end to both the liberty and the independence of my country and to the union of the Central American republics, which constitutes the only barrier to foreign cupidities."

# CURES

There is nothing that causes more worty and discomfort than a chronic, festering ulcer. As it lingers, slowly eating into the tissues and surrounding flesh, and by its tendency to grow worse in every way, it suggests the possibility of being cancerous in its nature. Efforts to heal the ulcer by means of salves, washes, lotions, etc., slways result in failure, because such treatment can have no possible effect on the blood where the impurities and morbid matters form, and are carried thorugh the circulation to the place, to keep it open, irritated and diseased. The impurities in the blood must be removed before the healing process can begin. S.S.S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this tich, purified blood is carried to the diseased place the healing commences, the inflammation gradually leaves, the discharge ceases, new tissue and healthy flesh are formed, and soon the sore is permanently cured because the source has been destroyed. S.S.S. does not make a surface cure, but by supplying the blood with healthful, tissue-building properties it begins at the bottom and causes the flesh at the diseased spot to firmly and permanently knit together, and the place is left sound and well.
